

WOODWARDS SQUAT HISTORICAL RE-ENACTMENT

On the fourth anniversary of the opening of Woodsquat

The old Woodward's building has been gutted to make way for yuppie condos, so let's get together to re-create this glorious moment in Vancouver's history.

Let's remember the squatters, supporters, activists, politicians, cops, city employees, social workers and hotel managers who made and unmade the squat.

We need your participation to make this re-enactment as historically accurate as possible. Feel free to bring costumes and other props.
