Dear Mr. Zworski,

**Re: City of Vancouver v. Claude Maurice et al**

Please note that the residence to which your package containing the missing affidavit material I requested on 08 and 12 November was couriered to the wrong address this morning. It was delivered to the home of my parents who live outside of the City of Vancouver and have nothing to do with the Woodward's Squat. They are elderly and I am concerned that representatives from your office telephoned them several times yesterday afternoon in order to obtain information about my whereabouts. Your representatives did not properly identify themselves to my parents and caused them a great deal of anxiety and concern because they were confused about the nature of who was phoning them and the nature of the package you intended to deliver. I request that the City desists from any further contact with my family regarding this matter. I do not believe that the City should engage in harassment or targeting of my family because of my political involvement in the struggle for decent and dignified housing in Vancouver.

Please have your department deliver the package containing the three items already requested to the offices of the Pivot Legal Society at 42 Blood Alley Square in Vancouver as soon as possible. This physical address should be used by the City of Vancouver for all future time-sensitive deliveries to my person. Any inquires you might need to make should be directed to the electronic mail address <vid@runcible.org> as I do not own a telephone and do not foresee myself in a position to obtain one in the near future.

Yours truly,

Aaron Vidaver
