

Protest Gordon Campbell!

Can't find your MLA?

That's cause they're too busy talking to big business.

On Feb 22, Gordon Campbell and his cabinet will be speaking to a members only meeting of the BC Chamber of Commerce. This is when big business will have their opportunity to congratulate the premier on a job well done. In their own words:

We sought change and we got it!

We got a tax regime that is approaching competitiveness, attack on regulations & red tape, revisions to labour and employment laws, and significant indications of fiscal responsibility in the future.

...a great start.
