

Fight Campbell!

Fight the Training Wage!

PUBLIC MEETING

Before they came to power, the BC Liberals promised that they wouldn't lower the minimum wage. They evaded this promise by introducing the \$6 training wage, which targets young workers, women, people of colour, "illegal" workers, and people with disabilities. This "training" wage effectively lowers wages across the board. It is an attack on all workers.

Together we will fight to end the training wage by targeting the businesses that benefit from it, the business associations that lobbied for it, and the Liberal government that put it in place.

Come and participate in our open meeting to help build the Campaign to End the Training Wage.
