

Housing Action Committee

You have picked a fight you will not win. Your 'Safe Streets Act Coalition' is just another alliance of businesses set on further persecuting poor people.

In your press release you use the word 'disorder' repeatedly. Because that is what you seem to fear the most that is what we will use to defeat you. We do not have the lobbying force your money has bought you. We are poor people, and our political power is in our disruptive capabilities.

We know where your offices are. We know when you have your meetings. We will do everything in our power to shut your coalition down, by every means available, what ever it takes.
