

Dearest David Jones.

Enough is enough. We are sick and tired of your *begging*. When you were a cop in the DTES you *begged* for more policing to beat and harass our brothers and sisters.

As the chief goon of the BIA you are now *begging* for more laws to punish poverty. You're *begging* the middle class to stop giving away their spare change to people in need.

Your *begging* council for change meters so that money will no longer go in our hands to feed us but into the hands of charitable institutions that keep us down.

We are tired of your *begging*. You *beg* only to have us beaten, persecuted, ticketed and thrown in jail. Your *begging* has gotten you a good job but we are not impressed. Stop your *begging* and fuck off. We don't want your solicited bullshit.

You've been warned
