No Safe Streets Act!
Repeal the anti-paupering by-law
meets all poor needs, does not create a new one!

Business groups, unions, and the BC Liberal are pushing for a "Safe Streets" Act that will make the streets absolutely unsafe for homeless people, park users, and the homeless. The purpose of the proposed "Safe Streets" Act is to expand the war against the poor and to drive them from the safe streets of poverty and homelessness in BC - the BC Cities.

Vancouver and other cities in BC already have anti-paupering by-laws. Every day nearly 5000 and one home and homeless people are on the streets of Vancouver. Homeless people are regularly beaten up by the police. At the same time, the BC Liberal have cut thousands of people off health and social through new health care and other drastic and inhumane and expensive cuts to the health care system.

On Thursday June 24th, the Downtown Vancouver Business Improvement Association is holding its Annual General Meeting. They are leading the push for the legislation. They are also planning for a large International Courtroom Association gathering in Vancouver. We encourage you and BC business leaders, business groups from around North America to Vancouver to show up from your BC business, individuals, and purchase the poor and homeless. Let's give and tell them to back off.

For help with my-1000 the bolts come in our new with a set 232 Capital St. across from, Pigeon Post.
